CHALLENGE #2 · KNOW YOUR BILL, MANAGE YOUR USAGE

“Why is my bill like this?”

Aling Rosa’s October bill is **₱6,817, up ₱937**. She almost called Meralco to complain, without knowing if it was the rate, the aircon, the heat, or a billing mistake.

01

The bill shows what, not why

One peso total. Nothing says which charges you control, or that generation and transmission are pass-through.

02

No one knows the cause

Rate, more billing days, hotter weather or household usage? Households guess, blame Meralco, or call the hotline.

03

No way to check it

People have no basis to judge whether a charge is even right.

04

Saving has no payoff

“Save electricity” says nothing about which change matters, and nothing rewards the effort.

THE SOLUTION

Meet Eelio.

Eel · nature's living battery **Elio** · light and clarity **-io** · made for you

A phone-first app that tells a household **why its Meralco bill changed, to the peso**, and helps it use less next month.

WHY EELIO

Your bill, not bills in general

Existing guides explain charges in general. Eelio explains your own bill, line by line.

Every peso, line by line

Each charge shows its share of the bill and who gets it: the grid, Meralco, government or subsidies.

Rewards real savings

Points come from the kWh your home actually saves, not from self-reports.

FEATURE HIGHLIGHTS

Know your bill. Manage your usage.

Scan & link

Snap the latest bill. AI reads it, links the household by its CAN and loads 12 months of history.

Bill Wrapped

A five-story recap that ranks what moved your bill: rate, billing days, weather, household usage.

Ask about a charge

Tap any charge line and ask why it moved. Answers use its own figures and Meralco’s bill guide.

5% Missions

Tap your appliances, pick one routine, and get up to five missions that cut about 5%.

Points & Rewards

Earn points for the kWh you actually save, then spend them in the Rewards shop.

Leaderboards

See how your home and your barangay rank by kWh saved.

EELIO · WHY IS MY BILL LIKE THIS?

Thank you!

Know your bill. Manage your usage.
